Our New Chrome Factory!

Our brand new state-of-the-art chrome facility is now running and producing the highest quality bumpers on the market.

The Details make the difference!

Don't settle for incorrect, knock-off parts for your car. Get premium sheet metal parts from the restoration pros at **Auto Metal Direct**. Our panels are made from the proper gauge steel and include all correct-as-original clips, tabs, flanges, bends and seams. Each time a prototype body panel comes off of new tools, we test fit it on a car. The marked up prototype is then used to change and improve the tools, and a new prototype is produced. This procedure might be repeated multiple times, but once the part is finally approved, you can be assured of a quality part.

AMD's quarter skins come complete with door jambs, unlike our competitor's parts

We Install What We Sell!

You already know that you can get premium sheet metal parts for your muscle car from Auto Metal Direct (AMD). Our panels fit and include all correct-as-original clips, tabs, flanges, bends and seams.

We are so confident in the quality and fit of our parts, that we have developed our own installation center! Cars that were formally written off as hopeless have now been given a new lease on life. And since we are actually installing our own parts, we are able to develop parts that fit correctly.

Bumpers & Accessories

AMD bumpers are made from heavy gauge steel and feature OE quality chrome finish. All parts feature, depending on application, correct holes for turn signals or back up lamps. Installation is fast and easy as all parts are designed to be a direct bolt-on utilizing OE bumper brackets and hardware. Our bumpers are manufactured on our new, state of the art chrome production line. **All bumpers are covered by a 5 year limited rust-through warranty.**

Bumper Bolts, Brackets & Accessories

AMD offers new bolts, mounting brackets, bumper guards, and license brackets to complete the installation of your new bumper. You'll find your bumper installation easier when using new parts instead of bent or rusty originals. AMD bumper mounting bolts are precision-manufactured from steel with a chrome finish to match up to AMD's chrome bumpers perfectly. AMD bumper brackets are accurate reproductions of factory originals. Don't waste your time trying to refurbish your rusted and pitted originals.

Valances, Headers & Spoilers

AMD grille fillers, front valances, and header panels are a great choice for your next musclecar restoration project! Constructed from durable steel: these panels are EDP coated for rust resistance. AMD panels are direct replacements for the stock pieces so you can be assured that you are getting the right fit for your vehicle. Our plastic grille fillers and front spoilers are injected molded like the originals and are the most accurate on the market.

Our Name Says It All!™

All of our own AMD parts in this catalog are listed in Blue, bold-face Type.

www.AUTOMETALDIRECT.com

Fenders & Accessories

AMD fenders are manufactured using high quality, heavy gauge steel on our exclusive new tools and features correct as original body lines, braces, marker light holes, and antenna cut-out (*certain models only*). Like all AMD parts, these fenders arrive in a black EDP finish and will require standard prep work prior to paint. **Please note that fenders with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the fenders we produce.**

Fenders & Accessories

AMD offers fender patch panels that are manufactured from high-quality steel and are black EDP coated to resist rust, making them perfect if your restoration project only has minor rust in the lower rear sections. We also offer fender extensions and braces to complete your installation.

Inner Fenders

Factory inner fenders lead a tough life. Acid dripping from the battery, holes drilled for mounting accessories, rust, and accident damage all take their toll. All of AMD's inner fenders are stamped from heavy gauge steel and EDP coated for protection and licensed through GM's Restoration Parts Program. We offer the only correct '71 & '72 Chevelle inner fenders and we also offer versions for Standard or RS Camaros.

Hoods

Eliminate the dents, rust and body filler on your old hood with a new AMD hood made on our own tools. AMD offers a wide selection of hoods for many models. All OE style AMD manufactured hoods are GM licensed. All underside braces and brackets are reproductions of originals so each hood has the correct appearance on both sides. All hoods are designed to be a direct bolt-on replacement for your vehicle's stock hood, and utilize your vehicle's stock hinges and latch assembly.

We also offer a large selection of cowl induction hoods that resembled hoods that the factory "should have" offered. **Please note that hoods with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the hoods we produce.**

**All hoods are shipped
TRUCK FREIGHT.**

Hood Accessories

When replacing your hood, be sure to replace your vehicle's worn out hood hinges with a brand new set from Auto Metal Direct. Our hood hinges are brand new - not rebuilt like cheaper knock offs. Each hinge features correct as original hood springs. We also offer items like hood latches and bumpers to complete your installation.

Full Floor Pans

Rusted, cut, or weakened floors should be replaced during any restoration project. AMD's full floor pans are made from heavy gauge steel as original, and feature all correct reinforcing ribs and shapes. Most pans include OEM-style braces, and some feature inner rocker panels, too. Licensed by the GM Restoration Parts program, these full floor pans are top quality reproduction parts for your project.

Floor Pan Halves, Patches & Parts

AMD also offers floor pan halves, and patch panels. For use if your car is not completely disassembled. Made from the same heavy gauge steel, these panels include correct reinforcement ribs and stampings. We also offer many floor pan accessories such as braces, brackets, and seat mounting parts to make your floor pan restoration complete.

Outer & Inner Rocker Panels

Replace rotted, dented, or damaged Rocker Panels with our premium quality reproductions. Rocker panels provide critical structural support for the entire body, and are easily weakened from years of rust and corrosion. Made from heavy gauge steel like original units, our rocker panels are fully licensed by the GM Restoration Parts program. **Please note that rocker panels with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the rockers we produce.**

Dash Structure

Moisture and debris gather over the years at the base of front windshields, and the rust which results will inevitably reach the lower front area of the dash panel. Moreover, many muscle car owners have mounted tachometers, oversize speakers, and other accessories on the dash, leaving ugly screw-holes. If the dash top on your GM muscle car is damaged, replace it with one of these high quality reproduction Dash Repair Panels from AMD.

OE Style Door Shells

AMD's '69 Camaro/Firebird door shell is the highest quality door on the market. It contains all the internal structure required to mount, glass, window regulators, door handles, etc. Unlike others on the market AMD doors are stamped on OE gauge steel to replace your rusted or damaged door perfectly. **Please note that the OE door shells with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the doors we produce.**

Roof Panels & Parts

It is often easier to replace the entire roof panel than to repair rusted areas. If you have rust under a vinyl top this item can be a real time saver. Made to OE specifications this skin covers the entire roof area and mates with the A pillars and quarter panels, including the windshield and back glass channels. We also offer additional roof parts including inner braces, drip rails, and drip rail moldings to complete your installation. **Please note that the roof panels with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the roofs we produce.**

Deck Filler Panels & Accessories

Window channels often fill up with moisture and debris, and eventually rust through at the bottom and corners. The bottom window channel on some GM cars is a part of the Rear Deck Filler Panel. This component usually includes both the lower rear windshield panel and the upper decklid channel. Both channels are subject to moisture retention. Made on our own steel tools, these premium panels are sure to please. **Please note that the deck filler panels with a part number starting with "X" (instead of a number) are not made by AMD and may not meet the same quality standards as the panels we produce.**

OE Style Quarter Panels

Each AMD full OE style quarter panel is manufactured from high quality, heavy gauge steel on our exclusive new tools and feature correct body lines, marker light holes, door jambs and full sail panels. We use heavier gauge steel than other manufacturers which provides a more durable finished panel. Please note that the quarter panels with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the panels we produce.

Outer & Inner Wheelhouses

AMD offers outer and inner wheelhouses for most GM applications. The outer wheelhouses are often overlooked until a rusty quarter panel is removed, revealing a rusted outer lip. Often the inner wheelhouse is rusty, too, especially if the car has a rusty trunk floor. All of the wheelhouses that AMD manufactures is officially licensed through the GM Restoration Parts Program. **Please note that the wheelhouses with a part number starting with "X" (instead of a number) are not made by AMD and do not meet the same quality standards as the panels we produce.**

TRUCK FREIGHT.**

Trunk Floors, Braces & Extensions

Providing OE style coverage for replacement of the entire trunk floor, our one-piece pans have all the shapes, contours and holes as original. Depending on model, trunk floors include trunk braces, rear pan support and jack brackets. These high quality floors are made on new AMD tools. Please note that the trunk floors with a part number starting with "X" (instead of a number) are not made by AMD may not meet the same quality standards as the panels we produce.

Frame Crossrails & Crossmembers

Next time you're underneath your GM muscle car, take a look at the Rear Frame Crossmembers and Crossrails. These vital components are crucial to keeping body panels and frame rails supported and aligned correctly. Yet over the years many, many of these fragile components have been damaged by collision, rust, and ill-advised attempts at pushing or towing.

Complete Glass Kits

Now, get great fitting glass for your GM muscle car, with premium quality, reproduction glass from the restoration professionals at AMD! All of the glass kits are manufactured on AMD's exclusive tools and features thicker glass than other reproductions on the market. We offer most 2-Door Coupe, Convertible, and 2-Door Sedan (post) GM applications including X, B, and F body applications. Available in clear or factory tint with shaded upper band on windshields. All kits ship truck freight and incur an additional \$60.00 boxing charge to protect the fragile glass during shipment.

499) Complete Glass Kits

All Full Glass Kits carry an additional packing fee of \$60.

Windshields

AMD offers windshields for most GM musclecar applications in both clear and factory style tint with shaded upper section. Correct thickness glass helps moldings and gasket fit better. All windshields ship truck freight and also carry a \$35.00 boxing fee. Be sure not to forget the gasket or ribbon seal to ease installation.

All windshields are shipped **TRUCK FREIGHT**. 

A **SEDAN** has a post between the door and quarter glass. **COUPES** and **HARDTOPS** have no post. All glass is for 2-Door cars unless noted.

380) Windshields

All Windshields and Back Glass carry an additional packing fee of \$35.

Our Name Says It All!™

www.AUTOMETALDIRECT.com

AMD offers back glass for most GM musclecar applications in both clear and factory style tint. Correct thickness glass helps moldings and gaskets fit better. All back glass carries a \$35.00 boxing fee and some ship truck freight. Be sure not to forget the gasket or ribbon seal to ease installation.

660) Back Glass

All Winshields and Back Glass carry an additional packing fee of \$35.

Emblems

See Emblem Templates
on Page 125

AMD offers a wide range of emblems for GM vehicles from manufacturers such as CHQ, OER, OPGI, and Trim Parts. Perfect for replacing your original emblems or upgrading your car's looks to that of the various SS, Z-28, or R/S models. We also offer template kits to determine the location for drilling emblem mounting holes.

Moldings

AMD offers a wide range of moldings for GM vehicles from manufacturers such as AMD, CHQ, OER, OPGI, Trim Parts, and TWE. Perfect for replacing your original trim or upgrading your car's looks with optional trim, We also offer template kits to determine the location for drilling trim molding mounting holes.

Gas Tanks & Parts

AMD OE replacement fuel tanks are stamped from high quality rust resistant steel which is lead/tin plated inside and out. Each tank features the correct shape, size, holes, ribs and curvature, like original. Mounting straps and sending units are sold separate. AMD also carries many gas tank accessories including straps, sending units, caps, & hardware.

Hardware Kits

We offer AMK hardware kits to complete your restoration. They have developed many kits consisting of exact copies of original design fasteners. Kits are offered for the body, chassis, and underhood areas of most popular GM models. Hardware is individually bagged and marked for each component section.

225) Body Bolt Kits

AMK Master Body Hardware Sets

Typical kit includes fasteners to attach: back-up lamps, battery tray, bumpers & brackets & guards, bumper filler panel, cowl panel, door latches, fenders & braces & extensions & splash grille & brackets & mouldings, headlamp bezels, & adjusters, header panel, hood & hinges, hood levelers, hood catch & lock plate, hood catch support, hood mouldings, license plate brackets, marker lamps, nameplates, parking lamps, taillamps, trunk latch & striker, trunk lid, valance, wheelhouses & brackets.

The Details make the difference!

Don't settle for incorrect, knock-off parts for your car. Get premium sheet metal parts from the restoration pros at **Auto Metal Direct**. Our panels are made from the proper gauge steel and include all correct-as-original clips, tabs, flanges, bends and seams. Each time a prototype body panel comes off of new tools, we test fit it on a car. The marked up prototype is then used to change and improve the tools, and a new prototype is produced. This procedure might be repeated multiple times, but once the part is finally approved, you can be assured of a quality part.

AMD

Competitor

AMD's quarter skins come complete with door jambs, unlike our competitor's parts

All of our own **AMD** parts in this catalog are listed in **Blue, bold-face type**.

Our Name Says It All!™

Our Products

Many of our products are advertised and packaged with the GM Restoration Parts logo. This logo indicates that the product is no longer available from General Motors, but is manufactured to GM's specifications and licensed by GM as an official GM Restoration Part. Such products represent a prestigious class of restoration parts that are nearly identical to the products offered by GM, and are made from the original GM tooling whenever possible.

We have filled out our line by also selling the finest available parts we can find on the market. Below are some of the manufacturers whose products are now in our inventory:

Classic Headquarters - for over 30 years the world's premier manufacturer for high quality, technically correct restoration products for General Motors Musclecars including - Camaro, Chevelle, Nova, Pontiac, Full size, Corvette and Chevy Truck.

Original Equipment Reproduction® is the restoration parts manufacturer who set the standard by which all other restoration parts are measured. Making their name in the industry by focusing on the details of their products and supplying highly demanded parts not elsewhere available, OER® brand products represent countless man-hours invested in a process of analyzing, developing, and refining. Products advertised with the OER® logo uphold the standard and tradition that consumers and installers have come to expect.

TrimParts, Inc. manufactures GM licensed restoration parts for Chevrolet and other GM cars and trucks. They are dedicated to manufacturing the highest quality products offered in the restoration industry by using the original GM tooling under licensing from GM when tooling is available. Otherwise, TrimParts engineers and builds in-house tooling to meet the original GM Specifications and TrimParts Quality.

SoffSeal, Inc., is the industry leader in manufacturing quality weatherstripping and rubber detail items. Their tooling capabilities include both sponge and dense extrusions. They can bond molded parts to extrusions, both sponge and dense. Additionally, they make rubber parts such as pedal pads, bushings, grommets, seals and other related items. They can also manufacture custom molded parts. Their speciality has been in weatherstripping and sealing products for the restoration and Street Rod markets, as well as custom OEM applications and universal-use sealing products.

Our Name Says It All!™

All parts designated with this symbol  are officially manufactured and licensed under the General Motors Restoration Parts Program.

Ordering & Shipping Information

Our Name Says It All!™

Ordering

First, double-check your order before contacting us. Make sure you didn't miss that extra tail light bracket or support that you needed, and then give us a call. Ordering everything at once can save you a lot on shipping. Call us to place your order toll free at (833) 404-4445, mail in your order form, fax your order to (770) 692-6360, or email us at sales@autometaldirect.com.

Mail in orders should be sent to:

3348 Gateway Centre Pkwy
Gainesville, GA 30507

Prices

Due to periodic price increases associated with manufacturing, **all prices are subject to change without prior notification.** Call to ensure up-to-date pricing and to check product availability. The pricing in this catalog supersedes any previous publication.

Payment

We accept MasterCard, Visa, American Express, and Discover. We also accept payment via money order, cashier's check, or personal check.  reserves the right to hold orders paying by personal check for 3-5 days to allow for clearance. Sorry, we cannot ship any orders COD.

Shipping

We ship small parcels via FedEx Ground. FedEx Next-Day Air and 2nd Day Air also available. Please ask your sales representative if you would like a faster service than ground.

 will charge you actual shipping rates established by FedEx Ground. Due to their size, some items may have an oversize fee attached. We do not have a standardized shipping schedule based on order size. We are able to send FedEx orders into Canada.

Orders too large to ship by FedEx (Hoods, Fenders, Full Floors, etc.) will be shipped via Truck Freight. The truck freight carrier will be determined at the time of shipping. We can ship your order to your house, but truck freight fees for orders sent to a business located in a zoned commercial area are substantially lower. As with FedEx, we do not have a standardized shipping schedule based on size or location. Please call us for a shipping quote prior to ordering.

Damages

You must inspect all truck freight shipments for damage at the time of delivery! If your shipment contains damage, please mark 'Damaged' on the freight bill and call us immediately at 833-404-4445. You **MUST** sign the freight bill as damaged in order for us to help you file a claim with the truck carrier! If you sign the freight bill free of damage,  and the delivering truck company are not responsible for damages.

Additional Boxing Fees

Due to the fragile nature of glass, we have gone the extra mile in packaging orders that contain glass kits and individual pieces. The following charges will be added to glass orders. This fee is to cover the cost of the protective packaging and will be added to the actual shipping fee.

Windshield / Back Glass Add \$35.00
Complete Glass Kit Add \$60.00

Returns

You may return any unused, undamaged, and resalable part in its original packaging for exchange, credit or refund up to 6 months after purchase. All orders, cancellations and returns are subject to a 15% restocking fee. **All returns must have prior authorization before returning them to us.** Shipping fees that are incurred from returning any part to us is your responsibility. Finally, if the return shipment is damaged in transit, you are responsible for filing the claim with the carrier.

All  items are made on our own steel tools.

Parts Guarantee

All  products are guaranteed to be free from defects in material and workmanship. Test fit all parts before sanding, priming, or painting them. If we deem your part defective, our responsibility is to replace the part, issue credit, or refund the original purchase price. We are not responsible for any paint or labor expenses. The credit or refund amount will not exceed the defective parts original purchase price.

Backorders

Any items not available at the time the order is placed will be put on backorder. All backordered parts that ship after the original shipment will be subject to additional shipping fees. Backorders will not be shipped without your prior authorization. Please let us know if you do not wish to receive backorders.

Items with this icon are shipped **TRUCK FREIGHT**.

Production

Manufacturing automotive body panels has been our primary business for a long time. Our success in this very-demanding market can be attributed to our attention to quality control, our reputation for on-time delivery, and our effective system of cost-efficiency. This enduring program has resulted in very satisfied clients. And that is our simple business philosophy.

Warehouse

Our huge new warehouse is jammed full of beautiful new sheet metal panels. If you live in the southeastern US, why not come on by and pick up your body panels in person? Save those shipping dollars to buy parts you'll need to finish your car!

All parts designated with this symbol  are officially manufactured and licensed under the General Motors Restoration Parts Program.
